

Senses Temperature To Provide The Optimum Charge Automatically.

NEW!

TempAssure™

Patent Pending

Temperature Compensated Battery Charging
Featured on the ParaMode™ deck mount converter/charger

Senses ambient temperature to continuously ensure proper charging.

Helps extend battery life.

Helps prevent dead and drained batteries.

Filtered DC power.

Quiet operation.

You can't always rely on the weather, but you can always rely on TempAssure™ Temperature Compensated Battery Charging. Hotter temperatures ideally call for lower charge voltages, and colder temperatures call for higher charge voltages. TempAssure adjusts voltages accordingly, ensuring reliable charging no matter where you are. You can't control the weather, but TempAssure can always control your battery charging for you!

With TempAssure, the forecast is for reliable charging and long battery life.

TempAssure™ is optional on the ParaMode™ 4400 Series deck mount converter.

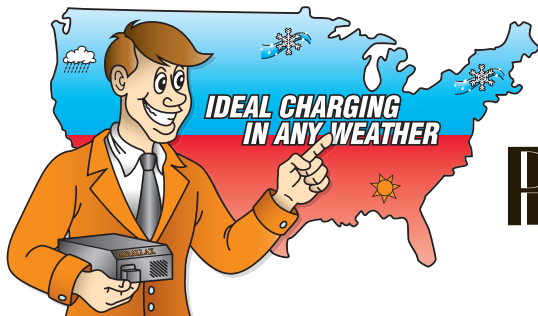

ParaMode Specifications

Output amperage: 55 amps

Weight: 6.5 pounds

Length: 11"; Width: 8-3/8";

Height: 3-5/8"

PS PARALLAX POWER SUPPLY

The Power To Bring People & Places Together.™
